

# STAT 154: Homework 0

Due date: 6 PM, Jan 30, 2019

January 23, 2019

**Problem 0** Tell us a bit about yourself. Why are you taking this class? What do you expect to learn from the class?

**Answer** (You can type or write in the space below)

I'm a senior statistic major at Berkeley. I take this class because I think the contents of this class are interesting and useful. I want to learn the algorithms behind today's AI technology. ML is a relatively new area that many people want to dive in. Knowing the theory behind it is beneficial.
